

Training the Trainer

Three day short course. Candidate trainers will participate in three, 6-hour meetings. The meetings include:

- A description of our training model;
- Rationale for why we use simulated cases and review actual trainee-patient interactions;
- Education in PST and BA
- Practice in playing standardized patients, practice with PST and BA, and practice in providing feedback to clinicians in training.

Day 01:

- Introduction and rationale of our training model;
- Overview of PST and BA (includes discussion of therapy frame, cultural adaptations, and video review of PST sessions).
- Case-based training in BA

Day 02:

- Case-based training in PST.

Day 03:

- How to use the PST and BA Competency Rating Forms;
- Review of actual patient-clinician interactions using the forms;
- Calibration of candidate trainer ratings.
- How to give feedback

Total expert (2) hours:	36
Total per candidate hours:	18
